ANGRY DEBATE ON COURT BILL

BATTLE RESUMED AT PEIPING GATES EARLY MONDAY NIGHT

RATTLE OF MACHINE GUNS SIGNALIZED NEW CHINESE AND JAPANESE FIGHT

PEIPING, July 12.—(AP)—The rattle of machine guns tonight told Peiping that the five-day battle between Chinese and Japanese troops along the Yunghing river, 10 miles west of the city, had been resumed.

The new outbreak of firing began at 10 p. m. (9 a. m., E.S.T.) and half an hour later was still going on furiously.

Resumption of fighting caused consternation to Peiping, where tension had been relaxed because the day had passed without further fighting. An armistice had been in effect, although neither side would say an agreement had been reached.

It was the sixth night of conflict along the Yunghing, where Chinese and Japanese first clashed Wednesday night. A unit of Japan's North China garrison on night maneuvers collided with part of the Chinese 29th army. Each side said the other fired first.

Earlier today Japanese troops were reported withdrawing from their positions in the western suburbs of this town, capital of ancient China to their base at Fengtai, southwest of the city.

Chinese sources reported heavy losses in the fighting last night for three villages on the Yunghing river, 10 miles west of Peiping. Tanks and artillery units had been brought into the action which was described as "furious."

The sound of the firing could be heard clearly in Peiping. The heavy throb of cannon fire and the sharp crack of rifles came from the vicinity of Wuyinghien, the walled village near Marco Polo bridge, where the fighting, started during Wednesday night maneuvers by the Japanese North China army.

The heavy fighting at Wuyinghien was thought to have ended before 2 a. m., although the engagement became general at other points just before dawn. Tanks brought up by the Japanese.

Says Men Kicked Her

First woman witness to testify at the labor board hearing in Detroit into charges against the Ford Motor company was Mrs. Catherine Gelles, above, a housewife, who said she was kicked in the abdomen by men who broke up a union attempt to distribute leaflets at the motor company plant in River Rouge, Mich., May 26.

ANOTHER SOVIET PLANE HEADS OVER NORTH POLE TO U. S.

RADIO REPORTS INDICATE FLIGHT IS GOING WELL AND MAKING GOOD TIME

MOSCOW, July 12.—(AP)—A Soviet airplane flying toward the United States today was rapidly approaching the North Pole.

At 2:17 p. m. (7:17 a. m., E. S. T.) the plane reported its position by radio as 70 degrees north latitude, about 1,400 miles from the North Pole. It was not expected to reach the Pole until about 24 hours after the take off, which was at 3:22 p. m. Sunday (E. S. T.).

Seeking a distance record in the second Soviet attempt to span the roof of the world by air, the plane has yet to overcome a Polar snowstorm and a vast waste of Polar ice.

Brief radio reports reported all well aboard the plane and indicated speed on the first stages of the flight to the United States.

The Soviet air ace Mikhail Gromov reported he and his two companions passed the latitude of Archangel at 9:10 a. m., (2:10 a. m., E. S. T.).

The Soviet air aces, small islands, fliers will be out of touch with land for from 24 to 36 hours until they strike the Canadian mainland and point their red-winged monoplane towards the United States Pacific coast.

They took off at 3:22 a. m., (8:22 p. m., E.S.T., Sunday) with few formalities on the Arctic sky trail blazed by three other Soviet fliers who reached Vancouver, Wash., June 20. They expected to pass Franz Joseph Island, following the same route as the trail blazers.

In the face of apparently unfavorable weather for low flying in the foggy Arctic regions, Gromov reported he was flying above the clouds after passing Archangel. It was believed, however, that the plane was in the air.

See SOVIET PLANE, Page 8

Slayer Of Girl Electrocuted In Rockview Prison

BELLEFONTAINE, Pa., July 12.—(AP)—Alexander Meyer, 20, son of a well-to-do retired coal operator, died in the electric chair at Rockview penitentiary early today for the slaying of 16-year-old Helen Meyer, a high school girl.

The girl disappeared on February 11 on her way home from school. Meyer, arrested a few days later, said in a statement that he deliberately ran her down with a truck. Then he attacked her and tossed her body down an abandoned well. Next day he dynamited the well "to hide the evidence." The explosion mangled the girl's body, but failed to seal the well.

Florida Man Electrocuted
FAIRFORD, Fla., July 12.—(AP)—Marius C. Powell of Jacksonville, convicted of killing his wife and charged with slaying her mother, died in the electric chair at the state prison here today.

PRESIDENT ROOSEVELT VEToes BILL TO EXTEND LOW INTEREST RATES ON LAND BANK LOANS

WASHINGTON, July 12.—(AP)—President Roosevelt vetoed today a bill to extend for two years low interest rates on federal land bank loans.

In a message to the house announcing his action he said that the veto was based on a general lowering of farm mortgage interest rates, an increase in the ability of farmers to pay interest and on the administration policy of trying to balance the budget during the fiscal year 1938.

The bill also would broaden the field of loans on which interest reductions were granted by including a 4 per cent rate on land bank commission loans. This would be a cut from 5 per cent.

Explaining that a majority of these loans were on second mortgages and that there were no federal loans involved, the president said the 5 per cent rate was not excessive.

The bill would have extended through this fiscal year the 3.5 per cent rate on federal land bank loans and through the second year ending June 30, 1939, would have provided a 4 per cent rate.

"I believe," the chief executive told the house, "that there is no justification for continued government subsidy of Federal Land Bank interest rates below the unprecedented low rate these banks

HEAT WAVE FROM WESTERN PLAINS TO ATLANTIC SEABOARD

DEATH LIST FROM HEAT EARLY MONDAY PLACED AT 337 PERSONS

By The Associated Press.

Thundershowers brought local relief today to many sections of the nation sweltering in a protracted heat wave that has left 337 dead.

Government forecasters predicted there would be more showers but that generally the hot, humid weather would continue at least another day in the northern half of the nation and in southeastern states.

Easterly winds and showers broke the hot spell in New England states, Buffalo and Rochester, N. Y., enjoyed 68 degree weather. The first rain since mid-June tempered the heat in North and South Dakota.

But the mercury rose again toward the scorching nineties in Chicago and other parts of Illinois, Georgia, Wisconsin, Indiana, Washington, D. C., and many other sections.

Drownings contributed at least a score to the heavy death list. Between 300 and 850 families in six West Virginia communities were driven from their homes yesterday when two creeks overflowed.

Showers and, in some places, rainfall that reached cloudburst proportions, were reported in sections of Illinois, Oklahoma, Iowa, Nebraska, Michigan, Colorado, Wyoming and several New England states.

In Chicago, 10 Lake Michigan bathers were burned and shocked when lightning struck a tree under which they had sought shelter during a thunderstorm.

Many cities along the Atlantic seaboard sweltered in 90 to 100-degree temperatures.

The death toll was mounting.

GEORGE GERSHWIN, FAMED COMPOSER, IS DEAD IN HOLLYWOOD

ROSE FROM TIN PAN ALLEY OF NEW YORK TO GREAT MUSICAL HEIGHTS

HOLLYWOOD, Calif., July 12.—(AP)—Death has ended the remarkable career of George Gershwin, rose from Tin Pan Alley to place the clouds of respectability about jazz music.

He came up from a \$15 a week song plugger to compose scores for film musicals at a reputed \$250,000 a year. He was a Pulitzer prize winner.

Gershwin was 38 years old. He died here yesterday of a brain tumor, after a hurried, futile operation. The body was to be sent to New York today for funeral services and burial, but memorial services will be held here Thursday.

Gershwin was born in Brooklyn. He showed his first interest in music at the age of 10 and received a meager education in it. At 19 he wrote his first musical comedy, "La La Lucille," and there followed the scores for five of George White's Scandals.

His best known work, "Rhapsody in Blue" had its premiere in 1923 at Aeolian Hall, with the aid of Paul Whiteman's night club band. Lovers of the classic had come in a mood to sniff, but when Gershwin and Whiteman had finished, they rose to cheer. The Blue Rhapsody bridged a gap between jazz and the classics.

"Music, to be true and lasting," Gershwin said, "must repeat the thoughts and aspirations of the people and the times. My people are Americans. My time is today."

Memorial Broadcast.
FORT WORTH, July 12.—(AP)—Paul Whiteman, famous orchestra leader, now appearing at the Casa Manana revue of the Fort Worth Frontier Fiesta here, will broadcast a memorial service for Gershwin.

See GERSHWIN, Page 8

Quarantine Off Eight Infantile Paralysis Cases

Dr. S. H. Burnett, county health officer, announced Monday he had authorized the removal of the infantile paralysis quarantines on eight homes in Navarro county, leaving three cases in the county still quarantined. He did not report any new cases of the disease over the week-end.

A total of 12 cases have been quarantined in the county, one in 1936 and that its approval by him "involving as it does an additional draft upon the treasury in excess of \$30,000,000 during the fiscal year 1938, would be totally inconsistent with my purpose of bringing about a balancing of the budget for that year."

Dr. William T. Shell, Jr., city health officer, said there were no new cases in the city limits Monday, in addition to the three homes previously quarantined.

VIOLENCE AGAIN MARKS CIO STRIKE IN STEEL INDUSTRY

MASSILLON, OHIO, SCENE OF BATTLE DEATH ONE AND WOUNDING OF SEVEN

MASSILLON, O., July 12.—(AP)—Two men died today of bullet wounds received in a clash between police and strikers near a steel workers organizing committee headquarters here, bringing to 15 the toll of the seven-week steel strike.

Six other persons were wounded in the clash. Police arrested 14 men, charging them with suspicion and disorderly conduct or holding them on open charges for investigation.

Fluencio Calzada, identified as a native of Mexico and a former Republic mill employee, was the first to die. Coronado Edward Reno said a 38 caliber revolver bullet crashed through the back of Calzada's head.

Nick Valdes, 45, died of a gunshot wound in the abdomen several hours after the fighting. Police said they had not determined his affiliations.

Plans went forward meanwhile, for the reopening of the last major unit of steel mill closed by the strike which at its height made 100,000 men idle in seven states. These are the works of Youngstown Sheet and Tube Co., at Indiana Harbor, Ind., where 7,700 workers have been idle.

In Columbus, O., Federal Judge Moll G. Underwood ordered immediate hearing on its merits of the federal injunction in the Mahoning Valley strike zone. He reserved decision on the state's efforts to obtain a change of venue.

Can Supply Names.
Frank Hardesty, subregional director of the SWOC, announced he had informed Chairman La Follette of the senate civil liberties committee the SWOC "can supply you with the names of some Republic Steel foremen who participated in the shooting."

Gund, who is reportedly for nearly an hour as uniformed and special city police besieged a two-story frame building in and near which strikers and sympathizers had assembled.

The structure, which is 500 feet from the main entrance to a Republic Steel Corp. plant. More than 100 men were in custody today as a result of the outbreak.

Ohio National Guardsmen were rushed from Canton.

Major H. O. Curley, former army officer named by Police Chief Stanley Switzer to aid him during the steel strike, told the strikers started the violence by stoning him and firing upon police.

See STRIKES, Page 2

EARHART SEARCH IS TEMPORARILY HALTED BY NAVAL FORCES

FINAL EFFORT TO LOCATE MISSING FLIERS BE MADE TUESDAY BY AIR

By The Associated Press.

HONOLULU, July 12.—The vast naval hunt for Amelia Earhart, missing 10 days in the South Pacific, was called off today in the isolated Phoenix Islands sector and searchers awaited arrival of an aircraft carrier to open last resort efforts.

The carrier Lexington, steaming southward from here, was expected to reach the search area and launch her brood of 63 planes by Tuesday morning.

Rear Admiral Orin G. Murfin, 14th naval district commandant, announced the navy had completed its fruitless search of the Phoenix Islands, more than 200 miles below the equator and far south of the course Miss Earhart and her navigator had plotted in seeking bleak Howland Island.

The aviatix and Navigator Frederick J. Noonan, believed dead by some naval authorities, disappeared July 2 presumably within a short distance of Howland, their goal on a 2,570-mile flight from New Guinea.

Admiral Murfin said the Lexington, running far behind the carrier, had been assigned to "mop up" areas already scanned by planes from the battleship Colorado, and to search other likely regions along the equator.

He said it was possible the planes would go as far west as the Gilbert Islands, nearly 600 miles from Howland, although other searchers held it almost impossible the Earhart plane might have come down that far away.

Admiral Murfin said the Colorado, whose three planes have made daily flights over the equatorial sea, would head today for Pearl Harbor, 1,500 miles away, after refueling three destroyers which were preceding the Lexington.

Fliers from the battleship, who have searched thousands of square miles in the Howland area, said they had lost hope of ever finding the missing pair.

ROUTINE MATTERS OCCUPY ATTENTION OF COMMISSIONERS

RETIRING AUDITOR TULLOS EXPLAINS REVENUES FOR COUNTY BUDGET

Routine matters occupied the attention of the commissioners' court at its regular meeting Monday morning. All members were present.

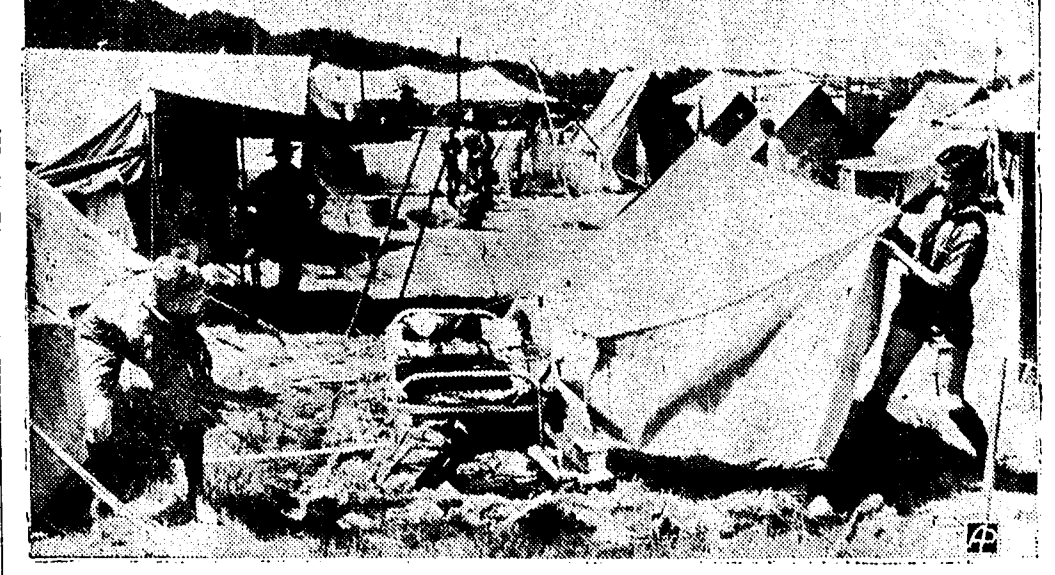

J. M. Tullis, auditor for the past 10 years, who was succeeded by E. Y. Cunningham at noon, advised the commissioners that the revenues for the budget of the present year was \$774 less than estimated last August and that the expenses had exceeded that set up in the budget for the general fund by \$2,585. A supplemental fund of \$600 had previously been set up for relief, etc., and a \$2,000 additional budget for the general fund was authorized by an unanimous vote. The additional budget was necessitated, it was stated, due to the lunacy costs, emergency repairs at the P. and S. Hospital and the heating costs for the county building, which could not have been foreseen and came within emergency.

D. M. Lawrence of Dawson was named deputy constable of Precinct 4, Dawson, on the application of Constable Clint Ford.

The report of the P. and S. Hospital for the month of June showed that charity for that period was \$2,500.

THIRTEEN TEXANS DIED VIOLENTLY DURING WEEK-END

AUTOMOBILE ACCIDENTS ACCOUNT FOR NINE OF FATALITIES RECORDED

(By The Associated Press.)

A violent death list of 13 was recorded in Texas over the week-end, traffic accidents, shooting and flood waters figuring in the toll.

Nine died in automobile accidents and two succumbed to bullet wounds.

At Fort Stockton, a downpour sent Conache creek out of its banks and overflowed a park. Joe Vasquez, 27, was swept to his death in the swirling flood waters as he attempted to cross a bridge. There was little property damage.

Texas West, 32, was killed near Glendwater today when his automobile overturned.

Felipe Uerna, 72, died of injuries received when he was hit by a truck while he was crossing a street in San Antonio.

Alvie Reed Whiteside, 26, of Denton, burned to death in an automobile-truck crash near Ennis. Elizabeth Blackmon, 21, of Del Rio, was fatally injured in an automobile collision near Lyndale, W. M. Powell, 52, of Warren, died from injuries in an automobile-truck crash.

Melvin Gryder, 4, was killed near Jonesville when struck by an automobile. C. G. Horn, 38, was killed in an automobile collision at Houston. Mrs. E. R. Finch, about 50, of Wallis, died in an automobile-truck crash. G. E. Ballard, 47, was fatally injured when struck by an automobile at Fort Worth.

Pedro Ortega, 28, was shot to death at San Antonio and John Lockett Powell, 23, of Texarkana, died from bullet wounds at that city.

Sergeant Walter E. Black, 23, was fatally injured at Brooks.

See TEXAS DEATHS, Page 8

Two Transients Killed in Train Wreck Monday

AUSTIN, July 12.—(AP)—Two transients were killed, another injured probably fatally, and at least five more hurt when nine cars of a Missouri Pacific freight train plunged from a high trestle today about 14 miles southwest of Austin.

One of the dead was identified as William Joseph Kennedy, 35, Galveston laborer. Identities of the other dead man and the man most seriously injured had not been established.

The known injured were: M. Burford, Clovis, N. M., left leg amputated.

Johnny Burke, San Antonio, severe bruises.

Alvie Yancey, Haswell, bad spinal injury leaving him paralyzed from waist down.

Unidentified man released from hospital after emergency treatment.

C. L. Lilly, Dallas negro, broken jaw.

Investigators said the victims were riding in two empty box cars.

Sheriff Lee O. Allen said the wreck was caused by the truck of one of the cars "jumping" the track shortly before reaching the Bear Creek bridge, then becoming caught in the cross ties as the car moved along the trestle.

Nine cars in the train's mid-section plummeted 70 feet to the rocks in the creek bed. The last three and the caboose remained caught in the bridge but the fourth from the rear hung precariously at an angle several hours after the wreck, endangering the lives of hundreds of persons who rushed to the scene.

SPANISH LOYALIST ATTACK ON REBELS MEETING SUCCESS

INSURGENT BESIEGERS OF MADRID IN DANGER BEING CUT OFF BY DRIVE

By The Associated Press.

The Spanish government drive into insurgent siege lines west and northwest of Madrid today threatened the safety of thousands of insurgents outside the capital's gates.

Insurgent forces which have been besieging the city for more than eight months were in danger of being cut off by the offensive.

The government attack reached a point 15 miles south of Madrid and drove a wedge toward Navalcarnero, an important insurgent supply base.

Official insurgent sources declared "we have established a powerful line of fire against the enemy drive," and said the government had lost more than 10,000 dead and wounded in the offensive aimed to break the siege of Madrid.

Near Valencia, three government warships and an insurgent cutter waged a naval battle, but shore witnesses said none of the vessels appeared to have been hit.

Great Britain worked against time to find a way of restraining the stalled machinery of non-interference in the Spanish civil war. It was believed a British program for breaking the international deadlock might be placed before the 27-nation neutrality committee within the next 48 hours.

An official French spokesman declared France has set tomorrow noon as a deadline after which she will start withdrawing facilities for international control of the Franco-Spanish frontier unless Portugal re-establishes them on her border.

Protests Filed.
LONDON, July 12.—(AP)—Foreign Secretary Anthony Eden told the house of commons today that Great Britain has protested to Italy against Italian press charges that Britain intervened in Spain in behalf of the Spanish central government.

Representations, he said, were made through the British ambassador to Rome, who was "instructed to make it clear that those

CHARGE MADE THAT FILIBUSTER ALREADY OPENED ON MEASURE

SENATORS O'MAHONEY AND ROBINSON IN SHARP VERBAL EXCHANGES

WASHINGTON, July 12.—(AP)—Senator O'Mahoney (D-Wyo.) told the senate today the administration court bill would give "a president so minded" the power to "wreck every vestige of human liberty."

His speech opened the second week of debate over the proposal. At the outset he attacked an anti-filibustering rule invoked by Administration Leader Robinson to force an eventual vote on the measure.

Resulting angry arguments led to charges—and denials—that a filibuster on the bill already was underway.

The slight Wyoming senator attacked the compromise bill advanced as a substitute for the original Roosevelt court bill.

He clashed frequently with Robinson, who sat just a few feet in front of him.

"We are rapidly coming to the 150th anniversary of the adoption of the constitution of the United States," he said, "and now we are asked to consider a bill to revolutionize that system."

"This bill should be called a bill to centralize the administration of justice and give centralized government greater control over administration of justice than ever before in the history of this government."

Speaking of Any President.
Emphatically O'Mahoney was "not speaking of the present occupant of the White House," but of "any occupant," O'Mahoney asserted the issue was whether "any president" should be given such power.

If the bill is enacted, he declared, "this generation may pass on and the next generation may be left sitting in a chair which constitutes a revolutionary change from the system handed down to us."

O'Mahoney asked if any of the senators present was not attached to the bill had explained it. "When those opposed to it attempt to explain it," he added,

See COURT BILL, Page 2

Young Woman Is Still Missing; Escort Slugged

FORT WORTH, July 12.—(AP)—An all night search by police failed to locate Miss Ethel Johnson, 24, who was reported missing after her escort was slugged by three men in front of her home here late last night.

Jack Cox, 24, told police that he was sitting in an automobile with Miss Johnson when he was slugged by one of three men who accosted them.

Cox said that one of the men whom he had ordered him out of the automobile. He regained consciousness to discover the young woman missing. Her purse, containing \$37 was found in Cox's car.

Cox, before he lapsed into unconsciousness, recalled that Miss Johnson screamed "don't do that, Sid."

Miss Johnson, who came here from Austin last February has been taking a beauty course in Fort Worth.

ACCOUNT OF DESTRUCTION OF TOWN BY ERUPTION VOLCANOES HEARD MONTH AND HALF LATER

HONOLULU, July 12.—(AP)—An account of the destruction of Rano, New Britain, by the eruption of two volcanoes was told today, nearly a month and a half after the catastrophe.

Captain J. M. Olsen of the Matson freighter Golden Bear, disclosed the rescue of 750 persons from the New Guinea island city last May 29, and set the death toll resulting from the cataclysm at more than 260.

Victor A. Costner, a member of the Golden Bear's crew, was among the missing. Others killed were 280 natives, ten Chinese children and other Caucasians, Capt. Olsen estimated.

Preceded by earthquakes, the first eruption occurred at 4 p. m. on May 29, Capt. Olsen said. It came from a submarine crater on Volcano Island in the harbor area.

Soon volcanic lava and pumice spread over the island and drifted to the mainland. It covered the Golden Bear, which was in the harbor.

The warning blast gave inhabitants of Rano time to evacuate before Mount Tuvuruvu, opposite the harbor from Volcano, went into action, said the captain.

Rescue work began shortly after the first outbreak, apparently, the captain said, Costner lost his life when he walked off the wharf during these operations.

Using her two lifeboats and a work boat, the rescuers transferred 750 inhabitants from Nondou, where they had fled to the Golden Bear during the night.

Next day the ship moved out of the harbor, its superstructure caked six to 12 inches deep with ash.

The rescue was timely, for Tuvuruvu exploded a great column of smoke and lava as the survivors were being taken aboard the freighter for the flight to Kokopo, 15 miles distant.

On June 12 the Golden Bear returned to Rabaul. The once beautiful city was blanketed with ash and pumice, the captain said. All vegetation was dead.

Texas Florists Open Annual Convention
FORT WORTH, July 12.—(AP)—Several hundred Texas florists' association members convened here today for the annual convention.

Forty exhibitors have arranged displays. A business meeting for the group will be held this afternoon and the official program will open tomorrow and last through Thursday.

A floral style show will be staged at Casa Manana Revue at the Frontier Fiesta Wednesday night.

SISTER CORSICANA WOMAN DIED HEART ATTACK IN DALLAS

Mrs. James C. Wishart, 58, a frequent visitor in Corsicana, died at her home, 120 North Edgfield, Dallas, Monday morning at 6 o'clock with a heart attack. Funeral arrangements had not been completed. Monday afternoon pending. Mrs. Wishart was a sister, Mrs. A. B. Horn, Corsicana, who is traveling in the National Yellowstone Park area. Mrs. Horn was not immediately located.

Maverick Expects Approval Cancer Research Bill

WASHINGTON, July 12.—(AP)—Representative Maury Maverick of San Antonio, Texas, said today he expects the house commerce committee to approve his bill for federal financing of cancer research, but minus a provision to establish a 100-bed hospital in Washington.

Terms of the bill probably will be agreed upon tomorrow, he said.

The original bill provided \$700,000 for a hospital; \$400,000 for laboratory equipment; \$300,000 for the purchase of radium, and \$1,000,000 to conduct research into the cause of cancer.

Magnolia Refiners Downed Mexia Club

Magnolia Refiners defeated the W. O. W. nine of Mexia at Magnolia field Sunday afternoon at 3:30 o'clock, 10-6.

The Mexia nine is managed by Fred Tyner, former third sacker for the Refiners.

Hopewell Cemetery Memorial Meeting Has Been Postponed

Because of infantile paralysis, the annual memorial service of the Hopewell Cemetery association held each year on Friday before the third Sunday in July has been postponed indefinitely, it has been announced by those in charge.

More Pickets Arrested.
SAN ANTONIO, July 12.—(AP)—Nine more pickets were arrested appeared at the Shirlee Frocks

STRIKES

(Continued From Page One)

Harold J. Rutenberg, steel workers' organizing committee research director, charged the officers fired revolvers, shotguns and tear gas shells into strikers and sympathizers "without provocation."

Versions Differ.
Three officers, Leo Kelley, William Fellaborn and Austin Kraft, said nearly 200 men gathered outside union headquarters before 11 p. m., the hour set at which a change of shift is made at Republic's nearby metal alloy division.

An automobile stopped at the curb and "played its lights" on the assembly, Kelley said.

A shouted order from Curley to the driver to shut off his lights brought a shower of stones from the strikers' midst, Kelley said.

The patrolmen agreed that an unidentified man then stepped from the union's doorway and fired five revolver shots in the direction of Curley and nearly two score officers who were stationed in the vicinity.

Rutenberg, however, declared: "I stood upon the steps of union offices for several minutes before the deputies, special police and Knotts shot at me."

Union foremen opened fire without provocation.

"Prior to the first shot that was fired, I saw and heard three deputies tell a motorist to turn his lights off. Then I heard a deputy say, 'Let's bust them up.'"

Other Violence Reported.
The clash here coincided with several fist fights on another strike line, East Chicago, Ind., where Youngstown Sheet & Tube Co. plans to re-open its mills to 7,700 workers in a day or two.

Two thousand men and women gathered at the Sheet & Tube Workers' gates, apparently with the desire to return to work, but dispersed when the gates were not opened. Gov. M. Clifford Townsend of Indiana announced the steel workers' organizing committee had agreed to permit workers to return to their jobs under a labor policy outlined by the company, but J. C. Argetsinger, Sheet & Tube vice president, said "this company has not made any agreement, contract or method of settlement with any officer or official of the state of Indiana or any of its sub-divisions."

Police on Guard.
Thirty-five policemen guarded the re-opening today of Republic's Dilworth-Rorter division in Pittsburgh, employing about 450.

There was no disorder. A Republic official said two strike-closed mines near Uniontown, Pa., also would re-open this week.

Congressman John T. Bernard (D-Minn.) in charge of the CIO effort to choke off the ore supply of strike-affected steel companies, said the SWOC had enrolled 88 per cent of 8,000 to 12,000 range workers.

The national labor relations board, meanwhile, opened a hearing to determine whether International Harvester Co. ore miners should vote by mines or as a unit on their collective bargaining agency. The company, which said the CIO "jumped the gun" by calling a strike in four of the concern's mines, sought an election by mines; the union requested the poll taken for the company as a unit.

More Pickets Arrested.
SAN ANTONIO, July 12.—(AP)—Nine more pickets were arrested appeared at the Shirlee Frocks

Steel Plant Reopened.
PITTSBURGH, July 12.—(AP)—The Republic Steel corporation re-opened its Dilworth-Rorter plant today after a 46-day shutdown following a strike of the steel workers' organizing committee.

Thirty-five police were stationed around the plant. There was no disorder and no picketing.

Newspaper Suspends.
DECATUR, Ill., July 12.—(AP)—The Decatur Herald-Review suspended publication of both morning and evening editions for the second time today after 14 editorial department employees, members of the American Newspaper Guild, walked out on strike.

Ultimatum to Ryan.
NEW YORK, July 12.—(AP)—Harry Bridges, west coast longshoremen's leader, said today he would submit an ultimatum to Joseph P. Ryan, International Longshoremen's president, to abandon the A. P. of L. and join the C. I. O. or have his organization taken away from him.

Strikers Vote Return to Work.
ALCOA, Tenn., July 12.—(AP)—Two thousand employees of the Aluminum Company of America, out on strike since May 18, were called back to their jobs today in the plant's fabricating mill.

The local aluminum workers union voted "almost unanimously" last night to end the strike and return to their jobs.

An outbreak of violence at the plant's gates last Wednesday resulted in the fatal shooting of two men and the wounding of 23 others.

National guardsmen, ordered to the scene following the rioting Wednesday, remained today.

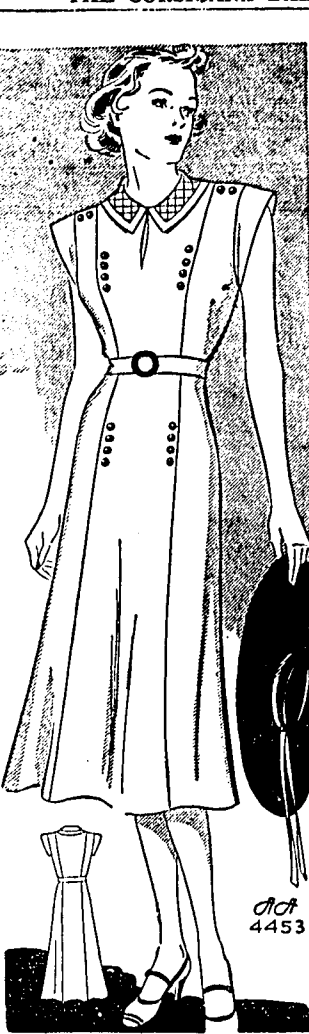

The workers walked out in protest of a lower wage scale than the company maintains in its Pennsylvania plants.

INDIANAPOLIS, July 12.—(AP)—J. C. Argetsinger, Youngstown Sheet and Tube Company, vice-president, telegraphed Gov. M. Clifford Townsend today the company's Indiana Harbor plant will be reopened tomorrow morning and asked national guard protection for returning workers.

The governor's return immediately there was no necessity for state protection.

MAKE THIS MODEL AT HOME

THE CORSICANA DAILY SUN DAILY PATTERN

CRISP FROCK BOASTS DETACHABLE COLLAR!

Pattern 4453

by Anne Adams

Like the perkiness of crisp touches? Then fancy what a spruce you'll have with this smart model whose trim collar makes for such an extremely chic effect? Best of all, the top collar may be detached for an extra tubbing whenever you desire. Pattern 4453 is distinguished by extra-easy cutting and stitching, too, for the graceful, well-fitting panels are cut all in one piece, without any wasteful seams! Here is the frock to make you a captivating spectacle every summer sports meet. Specially chic in crash, shantung, or linen.

Pattern 4453 is available in misses and women's sizes 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38 and 40. Size 16 takes 3-4 yards 36 inch fabric and 4 yard contrasting. Illustrated step-by-step sewing instructions included.

Send Fifteen Cents (15c) in coins or stamps (coins preferred) to this Anne Adams Pattern, 214 W. 17th St., New York, N. Y.

Make a "hit"! Order your copy of the New Anne Adams Pattern Book, and stick up your own summer "success" frock! Choose trim, dainty, lovely dress-up flatterers, cheery house frocks, and dainty undies! Gay, well-wearing togetherness for today and growing-up! Really slenderizing models! See what's beauty hints! Book fifteen cents. Pattern fifteen cents. Twenty-five for both when ordered together.

Send your order to the Daily Sun Pattern Department, 214 W. 17th St., New York, N. Y.

Inc. plant in defiance of a police order against picketing of the plant.

The pickets were taken into custody and booked at police headquarters for "unlawful assembly." No disturbance was reported.

Rebecca Taylor, organizer for the International Ladies Garment Workers union, said that picketing of the plant would be resumed as soon as the nine made bonds.

Promised Peace May Not Be Reached

INDIANAPOLIS, July 12.—(AP)—A promise of peace by Gov. M. Clifford Townsend for one of the last major fronts of the steel strike—the Calumet district of Northern Indiana—was shattered today by a series of conflicting statements and denials.

Indiana's farmer governor, already successful as a peace-maker in the strike at the Indiana Steel Company's big East Chicago, Ind., plant, announced yesterday he had effected settlement of the strike at the nearby Indiana Harbor mills of the Youngstown Sheet & Tube Company.

Immediately, J. C. Argetsinger, the company's vice president, replied in a statement issued at Cleveland:

"This company has not made any agreement, contract or method of settlement with any officer or official of the state of Indiana or any of its sub-divisions."

Argetsinger said, however, "we expect to open plants at the request of our employees Monday night or Tuesday morning."

Governor Townsend, in his announcement of peace terms, said the steel workers' organizing committee of the Committee for Industrial Organization had agreed to permit the workers to return to their jobs under a labor policy outlined by the company. The governor said the plants would reopen today.

Steel Plant Reopened.
PITTSBURGH, July 12.—(AP)—The Republic Steel corporation re-opened its Dilworth-Rorter plant today after a 46-day shutdown following a strike of the steel workers' organizing committee.

Thirty-five police were stationed around the plant. There was no disorder and no picketing.

Newspaper Suspends.

COURT BILL

(Continued From Page One)

"We are told we are filibustering." "Good presidents come and go, and bad presidents come and go, and these powers could be used by a president so minded to wreck every vestige of human liberty."

Each side in the bitter controversy attempted to blame the other for blocking important legislation.

The outburst came soon after the senate began the second week of debate on the bill.

Hot-tempered exchanges again marked the fight before crowded galleries.

Senator O'Mahoney (D-Wyo.) asserted Democratic Leader Robinson was "endeavoring to throttle debate on the most fundamental issue presented to the senate in two generations."

Robinson, carefully phrasing his remarks in question form, asked if O'Mahoney didn't know that when he invoked the anti-filibustering rule, "a filibuster was in progress and was being made to abuse the privilege of debate by interrupting the senators who had the floor."

O'Mahoney had the floor at the time. Under the rules he could be halted by Robinson only when the administration leader asked him a question.

The senator began his fight on the court bill by attacking the rules he said the administration had invoked to force a vote on the measure.

Just before O'Mahoney started speaking, he and other senators opposing the bill had blocked consideration of a conference report on the non-military amendment bill of the war department.

They also blocked introduction of the McGill-Pope farm bill.

O'Mahoney said he had objected to the non-military amendment in order to point out "the extraordinary rules" under which the court bill debate is proceeding.

Urges Action on Amendments. Just before the senate judiciary committee before the senate met, Senator Andrews (D-Ala.) urged it to act on its constitutional amendment to 11 members and compel retirement of justices at 75 years of age.

Some senators opposing the bill came out of the committee meeting forecasting action in a week on some such amendment. Others partly dissented.

The Andrews proposal embodied two of four constitutional amendments proposed by the president's program of reorganizing the court by abolishing the life tenure of justices.

The other two proposals were to permit congress to override by a two-thirds vote supreme court decisions invalidating judges to limit the tenure of judges to a definite number of years.

Committee Considers Four Amendments

WASHINGTON, July 12.—(AP)—The senate judiciary committee, which scathingly denounced the Roosevelt court bill, considered four constitutional amendments today as possible substitutes for the president's program.

Some members suggested one of the proposals might be a basis for a compromise if the pending bill should be blocked.

The committee was called together in mid-morning.

The proposed constitutional amendment would:

1. Require supreme court justices to retire at 75. The constitution now gives them life tenures.

2. Permit congress to override by a two-thirds vote supreme court decisions invalidating its acts.

3. Limit terms of judges to a definite number of years.

4. Increase the supreme court to 11 justices. One would be chosen from each of the 10 judicial districts, and the chief justice would be selected from the country at large.

The committee meeting was in the nature of a sideshow for the main event on the senate floor, where opposition senators renewed their fight against the Roosevelt bill.

Senator Bailey (D-NC) and Senator O'Mahoney (D-Wyo.), former assistant postmaster general, were the day's speakers.

Corsicana Rainfall Three-Fourths Inch Friday, Saturday

The rainfall in Corsicana Saturday was .48 of an inch, making a total of .76 of an inch over the two day period in which rain fell here.

Some other sections of the county reported heavier rain while most parts of the county had approximately the same amount as here.

HEAVY INCREASE IN PRODUCTION WHEAT AND CORN THIS YEAR

DEPARTMENT OF AGRICULTURE ANNOUNCES ESTIMATE BASED ON JULY 1 FIGURES

WASHINGTON, July 9.—(AP)—The agriculture department said today a 2,571,851 bushel corn crop and a 882,287 bushel wheat crop were indicated by July 1 conditions.

Farms produced 1,595,327,000 bushels of corn last year, while the five-year (1928-32) average production was 2,554,722,000 bushels.

The total indicated wheat crop combining winter and spring, compared with 626,110,000 bushels last year and an 852,000-bushel five-year average.

Department forecasters estimated winter wheat production at 488,641,000 bushels, compared with 448,579,000 last year, and 488,641,000 bushels, the five-year average.

They said the indicated production of all spring wheat was 218,646,000 bushels, compared with 177,469,000 bushels last year, and 218,646,000 bushels, the five-year average.

Barley, 243,540,000 bushels, compared with 147,452,000 and 231,237,000.

Rye, 50,368,000 bushels, compared with 45,564,000 and 38,212,000.

Rice, 48,716,000 bushels, compared with 46,993,000 and 42,828,000.

Beans (dry edible), 13,163,000 bushels, compared with 11,220,000 and 12,181,000.

Peanut, 57,683,000 bushels, compared with 47,650,000 and 57,288,000.

Potatoes, 30,178,000 bushels, compared with 28,556,000 and 24,334,000.

Sweet potatoes, 72,706,000 bushels, compared with 64,144,000 and 66,368,000.

The average of the various crops for harvest this year and the condition of the crops July 1 were:

Corn, 96,146,000 acres, and condition, 82.2 per cent of a normal; all wheat, 68,198,000 and 71.0; all spring wheat, 21,119,000 and 71.5; durum wheat, 2,841,000 and 75.8; oats, 35,933,000 and 83.8; barley, 11,116,000 and 79.3; rye, 3,960,000 and 76.9; rice, 1,003,000 and 86.1; beans, 1,003,000 and 76.0 and 75.5; peanuts, 3,224,000 and 83.3; sweet potatoes, 826,000 and 73.8.

The condition July 1 and indicated production of winter wheat by important producing states follows:

New York, condition 88 per cent of a normal, and indicated production, 7,312,000 bushels; Kansas, 61 and 138,285,000; Oklahoma, 14 and 62,286,000; Texas, 10.6 and 41,690,000.

(x) bushel yield per acre.

STATE TAX BOARD TO CONSIDER NEW SCHOOL TAX LIMIT

AUSTIN, July 9.—(AP)—Governor James V. Hired said today the state tax board probably would hold its first meeting on the state school tax rate late next week.

He pointed out he would be in Colorado most of the week of July 12 and likely will not be set until after his return.

Statisticians estimated retention of the present rate of 20 cents on the \$100 valuation would be necessary to pay for the state capital and appropriation voted by the board of education. Property owners, however, have urged that the levy be reduced.

The governor said he believed the tax board could lower the rate if it considered that action advisable. Members of the board beside the governor are the comptroller and treasurer.

CALL FOR BIDS ON SAM HOUSTON FARMS CONSTRUCTION WORK

DALLAS, July 9.—(AP)—Advertising for bids to construct 64 units on the Sam Houston farms, 20 miles east of Houston, has just been authorized by the resettlement administration, according to W. J. Green, assistant director in charge of rural resettlement.

Bids will be opened July 29, and contracts let immediately.

One section includes the houses, barns, chicken houses, and pig-pens. The second group includes drilling and completely equipping water wells for each unit. Bids now being received allow a 25 per cent increase or decrease in the number of units. Ultimate plans call for 88 units, averaging 50 acres each.

Corsicanan Attends Nacogdoches Soil Conservation Meet

L. I. Griffin, member of the agriculture committee of the Corsicana Chamber of Commerce, attended the big soil conservation service meeting at Nacogdoches Thursday.

Mr. Griffin was appointed a member of the national committee of the East Texas Chamber of Commerce.

Several pieces of silverware and silverware, work of the master American silversmiths of the Revolutionary era, owned by Mrs. W. W. Humbert, North Corsicana, and her sister, Mrs. S. A. Reagan, Roane, are pictured above. Most of the pieces were the property of their great-grandfather, Benjamin Hawkins, North Carolina patriot and hero, and have been handed down from generation to generation. Some of the silver is said to have been given Hawkins by George Washington, his personal friend and French interpreter during the Revolutionary War. Mrs. Humbert, left, is holding a part of the silver casket, said to have been one of the gifts to Hawkins from Washington.

TREASURE OF SILVERWARE AND SILVERPLATE WORK OF MASTER ARTISTS REVOLUTIONARY ERA

By JOHN SAM HASLAM

Three little round-top trunks of ancient vintage, in the homes of Mrs. W. W. Humbert, North Corsicana, and Mrs. S. A. Reagan, Roane, sisters, recently gave up what may prove to be a veritable treasure of silverware and silverplate, work of the master American silversmiths of the Revolutionary era. The pieces were the property of their great-grandfather, Benjamin Hawkins, North Carolina patriot and hero and personal friend of George Washington, and some of them are said to have been given Hawkins by Washington.

Nearly all the pieces shown grouped in the accompanying photographs are marked with the names, initials or other trade-marks of their creators. They have been in the family since revolutionary times and handed down from generation to generation.

Gifts of George Washington.
Pieces of the Hawkins collection, which, according to the family legend, were gifts of George Washington, are the 14-inch coffee pot, shown on the extreme left; the tea pot, next on the right; the silver goblet, next on the right and the silver casket, which includes the two larger pieces on the extreme right-center.

The coffee pot and tea pot, which are marked with the initials of the same designer, are said to have been parts of a set, from which are missing a silver tray, a sugar bowl and a cream pitcher.

On the bottom of the coffee pot and the tea pot are stamped the trademark of J. (for Joseph) Lowmoe, who filed his trade in Philadelphia about 1798.

Mr. "B. Hawkins," is engraved in flowing script on each of the remaining pieces. The object at the lower left side of the goblet is a part of the top that he attached to the tea and the top seen next to it was said to have been for the missing sugar bowl.

The silver goblet, next on the right of the tea pot, is the "right of the tea pot," is an undecorated save for the inscription, "B. Hawkins," in script style writing, and it provides no clue to the identity of its creator.

Mr. "B. Hawkins," the entire collection is the silver casket. It is made up of a heavy silver base, from which extends a silver standard. Filing over the base is a silver chalice-like tray, delicately ornamented, which has places for six silver goblets, egg cups, and six tiny silver spoons which are seen in the center of the tray.

At the bottom of the tray are six little goblets have holes in them which fit over silver pegs sticking up from the six places in the tray. This portion of the casket is the most elaborate and the most delicate design of the ensemble. Either the large pieces can be used separately, but provision has been made for them to be combined into a single imposing piece.

The name, "John Neville," apparently a guest in either the Washington or Hawkins home, has been scratched into the bottom of the lower tray.

While the casket bears no indication as to its creator, the stamped insignia about the size of a United States quarter-dollar has been soldered or cemented to the underside of the base.

Centering the insignia is a standing Indian with a bow resting on the ground on one side and an arrow or spear resting on the other side. The rim is roll-milled, and there are other decorations, but no indication is given as to the date or the name of the artisan who made it.

Heavy Cream Pitcher.
Centering the picture is a heavy cream pitcher, bearing the inscription, "J. E. H." The initials of Jeffersonian Elizabeth Hawkins, the name of Hawkins' wife and also the name of his youngest daughter. Made by William Gale and Son, New York, the pitcher is one of the most elaborate and delicately decorated pieces of the collection.

In the center-background is a wine set, said to have been owned by a later member of the family, Henrietta Corbin, their grandmother. Three silver trays, which have been lost in recent years, the trays are fastened together and are carried by the gorgeously fashioned handle.

This piece may not have the identifying mark of the silversmith who made it.

The cup in the lower right hand corner of the picture apparently was made from silver coins. On the bottom of the cup is the word "coin." On the cup is engraved the name, "C. L. Bacon," (for Carrie Lavinia Bacon), mother of Mrs. Humbert and Mrs. Reagan.

Thirteen heavy silver dinner forks are shown in the lower left-hand of the picture. Each of them is marked with the initials, "J. E. H." and on the back of them appear the words, "Day and Maussent," followed by "G. and S." which was the trademark of Gale and Son, New York silversmiths of note.

Other odd pieces in the collection include the large gray silver, lower center, marked "J. E. H." by William Gale and Son, bearing the same initials and numbers, and a smaller silver spoon, other large and small spoons and several broken forks.

Numerous Manuscripts.
Mrs. Reagan and Mrs. Humbert have numerous manuscripts and early and recent clippings, mostly from Georgia newspapers, giving the life of their great-grandfather. A monument was erected recently in his honor in Georgia.

Mrs. Humbert and Mrs. Reagan trace their descentancy from Hawkins in the following manner:

Hawkins' youngest daughter, Jeffersonian Elizabeth Hawkins, their great-grandmother, married Francis Bacon, and to this union was born one child, a boy, Frank Bacon, their grandfather. Frank Bacon married Henrietta Corbin and to this union was born one daughter, their mother, who married Eugene S. LeSueur, their father.

Mrs. LeSueur was born August 15, 1754, in Warren county, North Carolina, and died Nov. 6, 1816. He graduated from Princeton college near the time of the break between the Colonies and Great Britain. He was a polished linguist, and was said to have spoken French with the fluency of a native.

At the time of his graduation, General George Washington was in need of an interpreter, and between the two men grew up a lasting personal friendship. Hawkins became actively engaged in the battle of Monmouth in 1778, as well as having other service for the cause before and after that battle.

Represented North Carolina in the Continental Congress, and on January 13, 1790, Hawkins and Samuel Johnson, a governor of the state of Maryland, were seated in the first Congress under the new Federal Constitution, which position both held for six years.

One of the outstanding acts he performed while in Congress was his and Johnson's fostering in deeding a portion of North Carolina to the United States, which was later becoming the state of Tennessee.

In 1795 Washington asked Hawkins to accept charge of the Ohio river. Rich and cultured and with a brilliant future ahead of him, Hawkins did not wish the service which would isolate him almost complete isolation, and at first refused Washington's request. He felt it his duty to serve, however, and later accepted the responsibility becoming the first Indian agent in the United States. His position he administered with much satisfaction to his government until the onset of the war of 1812.

One occasion Hawkins entertained General Jean Victor Marie Moreau, exiled from France and en route to his New Orleans banishment, and after the war of 1812, he was one of the first trustees of the University of North Carolina.

DALLAS BROTHERS CHARGED IN AUTO THEFTS IN COUNTY

PARTS STRIPPED FROM TWO CARS STOLEN HAVE BEEN RECOVERED

Two brothers, Charles Britton and Erskine Britton, both of Dallas, are in jail and formal complaints of automobile theft were accepted by Cleo G. Miller, criminal district attorney Friday morning, following their arrest in Dallas and Fort Worth Thursday by Dallas City Detectives Corn and Bates. They were returned to the county jail here late Friday night by Deputy Sheriff J. M. Westbrook who was accompanied to Dallas by Constable Clarence Powell.

Two men are said to have admitted being implicated in the theft of three automobiles in Navarro county recently. A quantity of parts stripped from two cars stolen here was recovered and was returned to the owners Friday.

Five wheels, a battery and a fire jacket belonging to Miss Cornelia Hardy, deputy county clerk taken from its parking place near the courthouse, June 24, were recovered by the county sheriff Friday morning, following their arrest in Dallas and Fort Worth Thursday by Dallas City Detectives Corn and Bates. They were returned to the county jail here late Friday night by Deputy Sheriff J. M. Westbrook who was accompanied to Dallas by Constable Clarence Powell.

The application for funds in a rural electrification program has been submitted to Washington officials in complete form, according to announcement made Tuesday.

The company is unincorporated and is non-profit sharing, and is headed by a committee composed of E. P. Estes of Roane, chairman; E. B. Dawson of Dawson, secretary; William Dain, Kern, vice-chairman; E. M. Dawson of Frost, and Bernie Moore of Purdon. F. Mitchell is the engineer in charge of the project and Clyde Kimble is the field representative.

The application for funds included a complete map of the proposed system with projected lines measuring some 310 miles with signed application for 1350 customers. Cost of the proposed line is estimated at \$310,000, and more than 1600 additional potential users are estimated.

The project covers all of Navarro county, areas near Stewart's Mill and Kirven in Freestone county; portions of Ellis county including Malone, Cedar, Slay School, and extending to the corporate limits of Italy; and some territory in Hill county starting west of Pelham and extending near Irene.

Members of the board directing the company said Tuesday that the lists for the project had not been closed and any interested party could secure further information from the committee residing nearest them.

Application of the Navarro Rural Power Company for an allocation of funds for federal assistance in a rural electrification program has been submitted to Washington officials in complete form, according to announcement made Tuesday.

PROPOSED LONGHORN BAND HOME

Col. George Hurt, director of the University of Texas Longhorn Band, will be in Corsicana Saturday as the guest of Joel C. Trimble, local band director, and John H. Sullivan, Jr., member of the band and trumpet soloist. Director Hurt and Mr. Sullivan are expected to present plans for the proposed band building at Austin to ex-students and friends of the organization in Corsicana and Navarro county. The structure will cost some \$54,000 and will be erected through gifts. Plans call for one of the finest units of its kind in the South.

CORSICANA, TEX., JULY 13, 1937

THE LONG, WIDE ROAD

The American Constitu-
tion is a legal highway built
by people for themselves in
a horseback age. But it was
never a mere bridle-path;
it was the greatest job of
political engineering in history.

Its foundations are living
rock. But every generation
has wanted to widen it a
little, and do some resurfacing
to accommodate the
growing, changing traffic.
Many people, lately, more
fearful since the Great De-
pression, have insisted on
easing some of the grades and
curves for greater safety
and speed, and we've
been having a hot argument
about the engineering plans.
But no sane person wants to
abandon the road.

TRUTH ABOUT SPAIN.

Hitler spilled the beans
when he shouted, "Ger-
many needs Spanish ore,
and that is why we want
a Nationalist government
in Spain." It was no great
surprise to the rest of the
world, but it was a frank
statement of a fact previ-
ously concealed behind
many words and protesta-
tions of a less realistic pur-
pose.

Mussolini, too, speaks out
clearly and says that he
will back France's forces to
the limit, until the govern-
ment of Spain is crushed.

What now? Will Eng-
land and France, or any
other powers, be able to
avert a general war? Or
will they be able to avert
the conversion of Spain in-
to a German colony or a
part of the new Italian
"empire"? How long will
the Spanish people them-
selves be able to maintain
their resistance against this
ruthless foreign invasion?

It may be that the best
diplomatic brains that Eu-
rope can muster are inade-
quate to these problems
and that things will get
worse before they begin to
get better. Civilizations
have vanished before this in
the history of the world. If
this one must go, however,
it is not because people
don't see their peril but
because the nations are too
selfish to work together for
their own salvation. We
seem to be on the verge of
throwing away our civiliza-
tion because one nation
needs another nation's ore
and a pair of dictators need
to maintain their own pre-
sige at home.

ROMANCE AND HISTORY

So much has been said
about the Capulet-Montague
aspect of the du Pont-Roose-
velt wedding that it is inter-
esting to learn that there
was a time when ancestors
of the bride and bridegroom
were arrayed together in a
public cause. That was back
in the sixteenth century
when the Huguenots were
struggling for religious tol-
erance in France. During
those troubled times ances-
tors of Ethel and Franklin
were on the side of the Re-
formation. Some of them
broke away from the Old
World to seek peace and
freedom in the New World.
The differences of opin-
ion which supposedly exists
between the heads of the
Roosevelt and du Pont fam-
ilies are of modern origin
and strictly political. They
don't seem greatly to inter-
est the principals in this ro-
mance.

Here is a reminder, too,
that many of the nation's
oldest families were not
Mayflower Pilgrims, or even
English. The Dutch and the
French came early and did
much to make America.

Style cycles increase, as
a Technocrat would say, in
frequency and violence.

JUST FOLKS

(Copyright, 1937, Edgar A. Guest)

IN THE GARDEN.

Done with man's bickering and
strife
I walk my little garden round.
The peonies seem content with
life
Although their petals strew the
ground.

No murmurs of complaint I hear.
No tales of jealousy are told.
The shasta daisies, year by year
Neighbor with phlox and mari-
gold.

And whether it be violets meek
Or roses gay I stop to speak;
Neither in envy seems to speak;
Neither the other strives to be.

All things together seem to dwell
In harmony till life shall close,
And which is happiest who can
tell.
Twixt poppy, zinnia and rose?

ACTIVE OLD MEN.

"Old age hath still his
honor and his toil," as Ten-
nyson's Ulysses said, but
really the way some of
these old fellows bang
around nowadays, in what
purports to be a young
man's age, is almost scan-
dalous.

Newspapers told the
other day of two dozen eld-
erly gentlemen rounded up
by an enterprising press
agent and taken to see a
film of sea adventure,
whose hero is a young boy.
They ranged in age from
84 to 99. And did they en-
joy that show! Apparently
there wasn't much wrong
with their eyes or ears, or
their dispositions either.
They had the time of their
lives, and their only regret
was that, for one reason or
another, they wouldn't go
to sea and live some real
life. They each got a box
of cigars, and such a smoke!

One of these men never
smoked or drank until he
was ninety. Now at 96 he
puffs a pipe and likes a
glass of ale with his meals.
Another, who will be 100
next January, is a retired
tailor who still operates a
sewing machine and makes
clothes for his family, and
insists on building ladders
and painting the eaves of
his house.

With men retiring from
regular jobs earlier and
earlier, it's going to be
quite a problem to keep
the septuagenarians and oc-
togenarians and nonagenar-
ians out of trouble. We may
be able to manage the
young men, but who can
manage the old men?

OVERCIVILIZED?

A tendency to nervous
disorders caused by the
pace of living is "the Amer-
ican disease," says Dr. F.
J. Bateman, superintend-
ent for the State Hospital
at Columbus, Ohio.
"It is caused by the many
unconscious demands of so-
ciety resulting from over-
civilization, which disturb
the balance between nerve
waste and nerve repair.
"The fads and fancies of
this American disease would
make an interesting chap-
ter in medical history. This
decade we become tooth-
conscious or tonsil-consci-
ous. At another time it is
high blood pressure or col-
itis. At present we are
either psycho-analytically
conscious, or our nature is
bewitched by elusive vita-
mins.

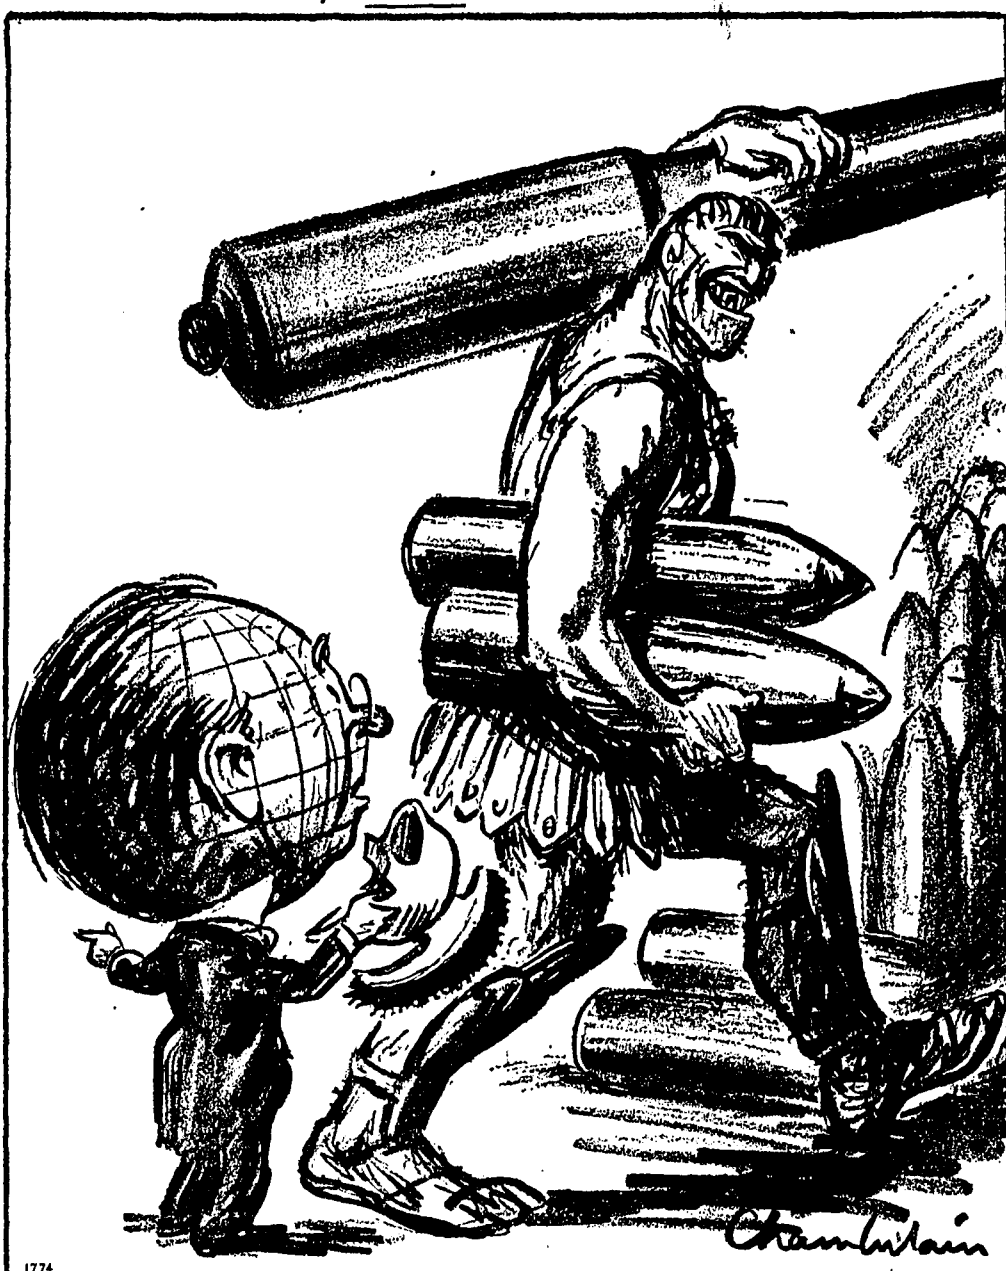

"Nervousness is not only
alarmingly prevalent, but is
sapping the vitality of the
present generation at a
great rate.

"Nine-tenths of life's
troubles would be elimi-
nated if some of our so-
called modern ideas were
tossed into the rubbish
heap. We eat too fast, we
live too fast, and such per-
fectionism as is rampant in
America today was un-
known even to the Puri-
tans."

So what? Probably this:
Take it easy. Don't get ex-
cited either about symp-
toms or about remedies. Go
slow. Physical activity may
be all right, but go slow
mentally. Old-fashioned
composure or self-possession
alone might cure most of
these diseases.

BRITISH LABOR VIEW

Sir Josiah Stamp, British
economist, who has been
visiting this country lately,
is interested in the American
attitude toward the labor
problem. Speaking as a rep-
resentative of British capi-
talism, to American capi-
talists, he says the United
States is today in a position
like that of Great Britain
twenty years ago.
We are "trying to make

"Naw, I never take a vacation!"

GOOD AND EVIL

It isn't difficult, in the
present silly season, to list
evidence that this is a cock-
eyed world and that human
beings are mostly nutty. It
isn't necessary, either, to go
abroad to do this. There are
signs enough within our own
borders that common sense
and common decency are not
the only motifs in the
pattern of living.

A hotel pantry girl who
discovered a murderer goes
on the stage. The minister
who married the Duke of
Windsor and Wallis War-
field is welcomed as a lec-
turer in America. A cult
scandal, a court squabble
over annulment of a drink-
ing brawl marriage, politics
in the popular sense, and a
host of other equally dis-
tasteful items could be men-
tioned.

However, before anyone
gives up the human race in
despair he should be re-
minded that just as long,
probably a longer, list could
be made of sensible, con-
structive, noble actions and
events. The Boy Scout Jam-
boree in Washington comes
to mind as one of them. A
new sense of social respon-
sibility is another; more peo-
ple today are aware of de-
ficiencies and inequalities
in society and are seeking
sound remedies for them.
Scientific research to bene-
fit human health, both men-
tal and physical, and re-
search to make better use
of our natural resources are
inspiring evidences that stu-
pidity and greed are not
having things all to them-
selves.

"Man knows," wrote the
late G. K. Chesterton, "there
is that within him that can
never be valued too highly,
as well as that within him
which can never be hated
too much; and only a philo-
sophy which emphasizes
both, violently and simultane-
ously, can restore balance
to the brain." And, one may
add, balance to life.

up our minds whether or not
to recognize labor." Cur-
iously enough, other ques-
tions such as wages and
hours are scarcely involved.
His advice is strong meat
for many Americans. "You'd
better recognize," he says.
He holds that British rec-
ognition of labor, plus leg-
islation holding both organ-
ized employers and organ-
ized workers responsible for
their behavior, has solved
the problem.

He probably realizes that,
with the passions aroused
by recent occurrences in this
country, he will not get a
very dispassionate hearing
at present.
Nations can trade with
each other or fight each
other.

**TREASURY MAY USE SOME OF
ITS HOARDED GOLD TO REDUCE
ENORMOUS GOVERNMENT DEBT**

WASHINGTON, July 9.—(AP)—
Fiscal authorities speculated to-
day on the question of whether
the treasury may use part of its
"frozen" \$1,143,000,000 gold hoard
to pare down federal debt.

The big supply of metal has
accumulated since last Decem-
ber, when the treasury instituted
its gold sterilization program,
designed to keep the supply of
credit stable through treasury
borrowing in amounts equal to
gold inflows.

Informed authorities said there
are indications the gold flow to
this country will drop sharply
under the \$5,000,000-a-day rate
of the last few months.
If this occurs, they said, the
treasury may consider utilizing
some of the gold already bought
with borrowed money.
This could be done by issuing
gold certificates against the metal

to federal reserve banks. The
certificates would be used to re-
duce the treasury obligations held by
the banks.

Officials said this operation
would not tend toward credit in-
flation unless the reserve institu-
tions exercised their authority to
issue notes against the gold cer-
tificates and reinvested the mon-
ey. Any reinvestment would send
the funds into commercial bank-
ing channels, increasing their
supply of lendable funds.

Treasury officials expressed
hope the federal budget can be
brought into approximate balance
during this fiscal year by im-
pounding 10 per cent of all ex-
cept irreducible appropriations.
President Roosevelt received from
the board of education a letter
yesterday in which the board
agencies that they would make
every effort to save the 10 per
cent.

FARMS FOR CITY FOLK.

It is an old story, how
city people lose money
when they try farming. Yet
Roger Babson, veteran sta-
tistician and business ad-
viser, is telling city resi-
dents to "buy a farm—just
in case."

The case he refers to
may be interpreted either
as ruinous inflation or per-
sonal hard luck. He thinks
it is a good form of insur-
ance for people who like
the country anyway, and
who have city jobs or small
businesses that give them
some ready money and a
some leisure which they
would otherwise fritter
away.

If rapid inflation should
come, he reminds them,
there would be a stampede
for farm lands. And
whether it comes or not,
farm work and city work
can be combined if the
farms are not too large or
too far from town.

His disdain for what are
ordinarily regarded as
"farm bargains" is inter-
esting. "The best land is
always the cheapest," he
says, "whether considered
for fertility or location for
development. Vacant, un-
productive land can 'eat its
head off' in ten years.

Farms from 10 to 20 acres
may keep a family alive if
the soil is good and the
farm is close to the city. It
is usually unwise to buy
foreclosed property. That
is because such property is
usually hard for anyone to
make a living on.
A surprising number of
people are doing exactly
what he recommends.

The idea behind the uni-
cameral legislature is that
one boy gets into less mis-
chief than two.
You can trace the course
of a Ship of State by the
pilots thrown overboard.

**REPORT VEGETABLE
SHIPMENTS AHEAD
OF LAST SEASON**

SAN ANTONIO, July 9.—(AP)—
Vegetable shipments from Texas
at large and the Valley in partic-
ular this season are ahead of
the movement at this time of last
year, according to Lance C. Hooks,
representative of the federal-state
market news.

Watermelons top the list for
the week with a total of 207 car-
loads to date as compared with
only 98 during the same week last
year. The total this season
through June was 935 against 528
shipped up to this time last year.
Six carloads of canteloupes mov-
ed during the week to start the
season as compared with none a
year ago.

Comparison of carlot shipments
of other vegetables shipped from
Texas last week and the corre-
sponding week of 1936 were:

Onions 88 cars in 1937 against
47 cars in 1936; peaches 3 as
compared with none last year;
tomatoes 113 against 141; mixed
vegetables 1 as against none in
1936.

The entire shipments of toma-
toes for 1936 totaled 1670 and
shipped through June this year
reached 5331; potatoes totaled
4922 cars for entire season as
compared with 2072 cars so far
through June.

**NEGRO CRITICALLY
WOUNDED AND WIFE
PLACED IN JAIL**

Elliott White, negro, is in the
Carraway hospital in a critical
condition and his wife, Reida
White, is in jail as the result of
a shooting affair Friday morning
2 1/2 miles south of Powell about
7 o'clock. The negroes surren-
dered at the county jail a short time
after the trouble.

Officers stated that the wound-
ed negro was shot three times
with a .32-caliber pistol. The
negress was quoted by officers as
saying that she and her husband
had trouble several days ago.

A number of witnesses appeared
at the court house Friday morn-
ing and a preliminary examina-
tion was conducted by Assistant
Criminal District Attorney J. C.
Jacobs before Justice of the Peace
A. E. Foster.

An operation was performed
Friday on the wounded negro.
A statement was made by the ac-
cused negroes. A formal charge
of assault with intent to murder
will be filed against her before
Justice of the Peace T. C. Cro-
wey of the Kerens precinct, offi-
cers said.

**DEBATING TEAM OF
HIGH SCHOOL TAKING
SPECIAL COURSE**

Three members of the Corsi-
cana high school's last year's de-
bate team, Joyce Gentry, Mary
Lou Smith and George Labban
are attending the Speech Institute
at the Texas State College for
Women at Denton, and according
to word today from their coach,
R. A. Armistead, they have made
an excellent showing. The in-
stitute is a new venture, directed
by Tom Rouse, professor and
debate coach at the University of
Texas, lasted six weeks.

The girls team won first place,
losing only three debates during
the entire season to both boys
and girls. Twenty-one outstand-
ing debaters, most of whom were
winners or runners-up at the
state regional meets, attended.
Seven of them attended the state
meet.

In addition to winning first
place on the team, Joyce was vot-
ed first place as individual girl
speaker, while Mary Lou won
third place. George was on the
losing team, but was awarded a
high ranking individually, fifth
out of fifteen.

Each team was under the di-
rection of a high school coach,
and Mr. Armistead coached the
Corsicana debaters.
The question studied was next
year's interscholastic league sub-
ject: "Resolved, That the Uni-
cameral System of Legislation
Should be Adopted by the Several
States."

**Single Building
Permit Is Issued
During Past Week**

A single permit for construction
was issued from the office of the
city engineer during the past
week, amounting to \$2,800 and
bringing the total for the year up
to \$85,475.
The permit:
Will S. Grossman, 110 North
Thirteenth street, house and gar-
age, \$2,800.

**MAE WEST WANTS HUSBAND TO
DROP SUIT NOW THAT SHE HAS
ADMITTED CLAIM; MAY ASK CASH**

LOS ANGELES, July 9.—(AP)—
Mae West, the screen's millionaire
hip-slinger, would like to see
song-and-dance man Frank Wal-
lace drop his suit for "declaratory
relief," now that she finally has
recognized his claim to being her
husband of 28 years standing.
Moon-faced Mae's attorneys said
as much today, but "Mr. West's"
counsel interposed an objection.

"Miss West has not answered
Wallace's contention that she liv-
ed together as man and wife from
the time of the marriage on April
11, 1911, until March 14, 1914," ar-
gued Lawyer Avery M. Blount.

It was a question for Superior
Judge Emmett Wilson to decide
before nightfall and Blount said
if the court ruled the suit could
continue he would take a deposi-

tion from Miss West. Blount said
also "it is quite probable" Wal-
lace will ask for an accounting of
community property.

In New York, Samuel J. Siegel,
another attorney for Wallace, said
the 47-year-old vaudeville actor
had been offered \$30,000 to "for-
get all about the ceremony," but
he will play for higher stakes,
half of his wife's reputed \$3,000-
000.

"Next week," Siegel was quoted
as saying, "we expect to apply
for an injunction that will tie up
all of Miss West's property in Cal-
ifornia."

"Her contention that she is an
unmarried bride," he continued, "is
ridiculous. We have affidavits to
show that Miss West and Wal-
lace lived together as man and
wife from 1911 to 1915."

**WOMAN AUTHOR OF SERIES OF
FANTASTIC LETTERS IS SOUGHT
BY LOS ANGELES FEDERAL MEN**

LOS ANGELES, July 9.—(AP)—
Federal agents hunted today the
woman author of a series of fan-
tastic letters which climaxed in
the threat to "expose" Mr. and
Mrs. John Boles, film couple, un-
less a \$500 payoff was made.

U. S. Attorney Pierson M. Hall
authorized issuance of a complaint
against an Oakland, Calif., resi-
dent charging misuse of the mails
in an attempted extortion scheme.

Arrest of the woman, authori-
ties intimated, might dispel also
the mystery regarding four weird
telegram received from Oakland
by Cecil De Mille, motion picture
producer, last week and letters
sent to Buck Jones, screen cow
boy.

Boles' business manager, Ira
Uhr, turned over to postal in-
spectors a letter upon which the
complaint was based. It was
mailed last June 13 in Oakland,
addressed to Mrs. Marcelita Boles.

"I intend to expose the dope
ring in Los Angeles, and that
brings you in as a headliner as
well as your old man," a passage
read.
"I gave you a chance to pay me
off for silence, but you didn't see
it that way. x x x I'm coming
down to tell all I know this time."

I don't want any \$50 or \$100. It's
worth \$500 to me—no less, so get
that. I wouldn't consider less."

Uhr said the Boleses had received
scores of letters from the same
volunteer correspondent in the
last four years, but these had
been considered harmless.

The couple have two chil-
dren. Their alarm about the letters
increased, Uhr said, by the re-
saying of three ingrown girls,
and they were led to believe the
writer "must be a crank or in-
sane."

"They think the writer should
be placed in some institution for
observation, rather than prose-
cuted," the manager added.

BEAUTY CHATS

—By EDNA KENT FORBES—
All requests for beauty information desired by Edna Kent Forbes' column followers must be accompanied by a fully self-addressed, stamped envelope (10¢) and two cents in stamps to cover cost of printing and handling. For the illustrated pamphlet, "BEAUTY," ten cents in stamps with fully a. a. s. must be enclosed. Address Miss Forbes in care of this paper.

HOLLYWOOD BEAUTY RULES.

Read Hollywood's rules for perfect beauty, but don't be discouraged if none of them fit your case. To improve yourself read Miss Forbes' Chats.

According to Hollywood, these are absolute rules for beauty, and if you want to find out whether or not you're beautiful, get a piece of paper and pencil and check up your face in the following method:

1. The distance between your eyes should be the width of one eye. If you have a wide nose, the width of your face should be the width of your nose.

2. The two lips, according to Hollywood, should be equally thick, but the upper lip should be slightly fuller than the lower lip.

3. The nose should be straight, and the bridge of the nose should be the same length from the line of the hair to the bridge of your nose.

4. But do not worry if you have not these measurements. The greatest beauties of stage and screen conform to none of these rules; still it is an interesting basis to work on, and valuable because it will show you your weaknesses. You can try for this mechanical perfection by the way you do your hair, by repainting your lips, by using dark powder for a large nose, light for a small one. I am inclined to sug-

gest that whatever type your face is, you try brushing your hair away from it high no the head, which is not only smart but adds quite a bit of distinction. Anyhow, experiment and see.

Miss C. F.—I shall be glad to send you the formula for the hair tonic if you forward a stamped, self-addressed envelope for the mailing. Directions for entering for the scalp will be included, so you need nothing else to make your hair grow.

France, Germany Sign Commercial, Financial Pact

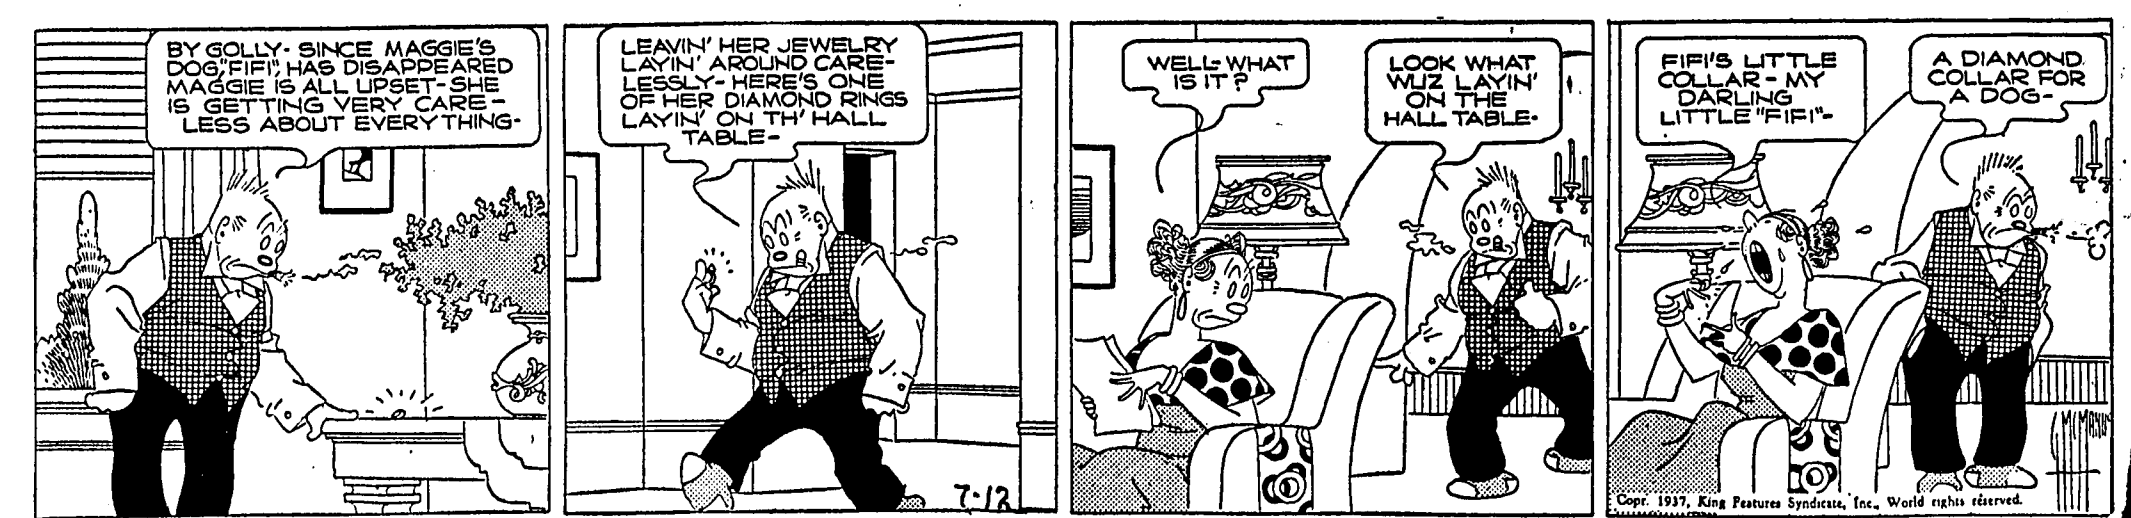

PARIS, July 10.—(AP)—France and Germany today signed a commercial and financial treaty to be effective for two years. The agreement was signed at the foreign office by Foreign Minister Yvon Delbos and the German ambassador, Johannes Gira von Wolzeck.

A French commerce ministry spokesman said the agreement wipes out ne of Europe's most troublesome trade barriers. Part of the accord already has become effective, with Germany relaxing its exchange restrictions to permit German tourists to bring about \$4,635,000 to the Paris exposition.

Fairfield Girl And Dallas Man Married

FAIRFIELD, July 10.—(AP)—Miss Mary Lynn Powell Saturday evening became the bride of Roy Jameson of Dallas. The wedding took place at 6 p.m. Saturday with Rev. Young reading the ceremony. Several friends from Dallas and Miss Margaret Young of Fairfield, were attendants. Mrs. Jameson is the daughter of Mrs. Lillie Powell. She is a graduate of Fairfield High School and attended a beauty school in Dallas and was employed there until her marriage. The bridegroom is employed by Neiman-Marcus.

U. S. STEEL LEADS GENERAL ADVANCE IN MONDAY TRADING

By VICTOR EUBANK.
NEW YORK, July 12.—(AP)—Stocks took their cue from steel in today's market and selected issues pushed up fractions to around 40 points. With steel news from most sectors largely on the optimistic side, U. S. Steel pointed the way on the recovery move by crossing 122, a gain of 1 1/2 points. The stock, which had been in a slump for more than a year, slipped from its best level, along with others, as profit selling made its appearance. The stock, which had been in a slump for more than a year, slipped from its best level, along with others, as profit selling made its appearance. The stock, which had been in a slump for more than a year, slipped from its best level, along with others, as profit selling made its appearance.

NEW YORK, July 12.—(AP)—Steel crossing 122, its best level for the recent recovery, led a gain of around 3 points. Steel market leaders today took a turn for the better. While the rally lacked speed, general gains of fractions to 2 or 3 points were well distributed near the fourth hour. Grains dipped and other commodities were mixed. Bonds were without definite trends. Merchandising, farm implement and aircraft issues were in the forefront of the advance. Many utilities and rails did little either way.

NEW YORK, July 12.—(AP)—Stocks milled about indecisively in cur market trading today with a few specialties coming to the front. Carrier Corp. makers of air-conditioning equipment, spurred upward 3 points, believed by traders to be a reflection of what extreme heat is doing to the company's sales. Colt's Patent Firearms climbed over a point and Red Bank held the spot light in the oil division as it pointed up 1 1/2. Utilities were neglected and showed sagging tendencies. Edging down a bit were American Superpower, Aluminum Co. and Mesabi Iron.

FEW APPLICATIONS SOIL CONSERVATION PLAN YET UNPAID

COLLEGE STATION, July 12.—(AP)—Of the 190,625 applications for payment under the 1936 agricultural conservation program received by the state, AAA officials said, only 1,500 remain unpaid, and payments aggregating \$34,070,850 have been made, George Slaughter, chairman of the Texas agricultural conservation committee, said today.

The applications covered 22,840,324 acres of crop land, and Slaughter pointed out that the average application covered 119.8 acres of cultivated land and that the average farmer received was \$173.73 a farm.

The average Texas farmer who participated in the 1936 program diverted 28.9 per cent of his cotton acreage to legumes or other soil conserving crops or to soil building practices. The program made provision for devoting a certain acreage for home needs, with the number of acres depending on the size of the family, the number of workstock and similar factors. The farmers who co-operated with the 1936 program devoted 3,971,945 acres, or a net of 20.8 acres a farm, to legumes and other crops for home use and for feed for their workstock.

Tennants who received part of the payments for farms entering the program made it necessary to issue \$12,861 checks on the 100,625 applications, or at the average of 1.64 checks a farm.

The land diverted from cotton received an average payment of \$6.59 an acre, while diversions from the general soil depleting crops received payments at the average rate of \$7.72 an acre, according to Slaughter.

Slayer of Trio Little Girls Is Face Trial Aug. 6

LOS ANGELES, July 12.—(AP)—Manacled and heavily guarded, Albert Dyer, 32-year-old WPA inmate, was taken to the Los Angeles County Jail today for trial on charges of murdering three little girls. Judge Thomas Ambrose set his trial for August 6.

Public Defender Frederic Vercoe, representing Dyer, made an eloquent charge in his plans to plead his client innocent and innocent by reason of insanity. The court announced that the reports of five psychiatrists who examined Dyer for his sanity would be made public later. The sanity experts all found him competent to judge between right and wrong, and to be responsible for his acts.

Dyer signed a confession, admitting that he lured the tots from the playground on the pretext of a rabbit hunt, choked them to death and outraged the bodies.

J. M. DYER COMPANY BUYERS TO VISIT EASTERN MARKETS

J. M. Dyer, buyer for J. M. Dyer Co., left Sunday for a month's stay in New York during the fall market season. Mrs. Ina Cruse, manager and buyer for the military department, will leave Friday to join Mr. Dyer in time for the opening fashion shows. Mrs. Anette Mims, manager of Dyer's toiletries and cosmetics department, will leave Saturday for Chicago to attend the national Elizabeth Arden cosmetics school which will be in session at the Knickerbocker Hotel the following week.

Mr. Dyer and Mrs. Cruse will attend the advance fall fashion openings of both American and Paris designers to select styles to be made up for Corsicana's August collection. Special attention will be given to the selection of fur coats, according to Mr. Dyer, as the late July fur markets will offer both a larger stock and more advanced prices. All styles by the fur will have been definitely decided upon and fur coats chosen at that time will assure the wearer of correct fashion through both fall and winter.

Plans are being made for an increased coat and suit department in the women's apparel section. Mr. Dyer said, and the most complete stock of coats and suits in the city. The new collection will be selected at the New York fashion shows. Fashions from Hollywood designers who are rivaling Paris couturiers in style and innovation will be included in Dyer's selection for fall showing here.

SEVERAL NATIONALLY KNOWN PEOPLE SHORT COURSE SPEAKERS

COLLEGE STATION, July 12.—(AP)—The program for the general assembly of the Farmers' Short Course, which will be held at Texas A. and M. College on August 16-19, will feature several nationally known personalities, according to E. R. Daily, extension director and chairman of the joint program division. The general assembly meetings for men and women, which will be held at Guilan Hall each day between 10:30 and 11:30 a.m., will be interpreted by the extension service. The principal speakers of the four sessions will be Dr. T. O. Walton, president of Texas A. and M. College; H. H. Hottel, director of the extension service; and Miss Barbara Van Heulen, associate extension specialist of the Farm Credit Administration, on Thursday.

The chairmanship of the general assembly meetings will be held by H. H. Williamson, director of Extension Service, on Monday; by Dr. T. O. Walton, Tuesday; Miss Hottel, Wednesday; and Jack Shelton, State Agent and Vice Director of the Extension Service, Thursday. Preliminary estimates place the number of men and women who will attend each of the general assembly meetings at 2,000 and 2,500, respectively.

Former Warden Of State Prison And Also Inmate Dies

HUNTSVILLE, July 12.—(AP)—N. L. Speer, 37, former warden of the state penitentiary, died today after a short illness. He had been in the hospital since last week. Speer served a short term in the same prison died here today. Recently he had been sergeant-at-arms in the state senate.

James D. McMahon, Well Known Texas Oil Man, Is Dead

CORPUS CHRISTI, July 12.—(AP)—James Daniel McMahon, 49, well-known Texas oil man, died last night following an illness of three days. McMahon was attributed to a heart attack. McMahon was field representative for the J. S. Cosden Oil Co. and came here recently from San Antonio. Survivors include his wife, Mrs. McMahon, his mother and seven sisters.

Pope Prays For Justice, Charity

CASTLE GANDOLFO, Italy, July 12.—(AP)—Catholics throughout the world heard Pope Pius XI pray for justice and charity in a message broadcast from the Vatican on the occasion of the opening of a new basilica dedicated to St. Therese at Lixieux, France.

What CONGRESS is Doing

TODAY Senate Continues debate on court bill. Judiciary committee considers constitutional amendments to revise supreme court. Debates District of Columbia bills.

GREAT POOL OF 298,000 BARRELS REFINABLE OIL HELD IN U. S. STORAGE END MARCH

SANTA FE, N. M., July 12.—(AP)—A great pool of 298,000 barrels of refinable oil was in storage in the United States at the end of March, 1937, the U. S. Bureau of Mines reported to representatives of the International Oil Compact today.

Of this, 93,000 barrels was classified as "old" stock stored prior to January 1, 1936, according to the report, which was of preliminary character.

The bureau's report constituted the first official federal survey of the nation's oil stocks now above ground.

W. R. Boyd, Jr., of Texas, executive vice president of the American Petroleum Institute, forecast to the meeting that there would be opposition in congress to ratification of the compact renewal, now before that body.

OLDEST RESIDENT TEHUACANA BURIED MONDAY AFTERNOON

TEHUACANA, July 12.—(Sp.)—William Rees, oldest resident of Tehuacana, and prominent in the affairs of Westminster College, was buried at Tehuacana Monday afternoon. Funeral services were conducted in Westminster College chapel.

An Englishman by birth, Rees came to this country in 1870, settling two years later at Tehuacana. On 1873 he contracted to build an addition on the college, now a landmark in this section. He is survived by five children.

SINO-JAP

(Continued From Page One)

ese from Fengtai were understood to have been operating in the neighborhood of the international golf course where, according to Japanese reports, the Chinese troops were entrenched.

Fighting Breaks Out

The fighting last night broke out an hour after Chinese officials had announced a settlement had been reached. They indicated full Japanese demands had not been accepted for complete withdrawal of Chinese troops from the area and reparations for what Japanese charged was an unwarranted attack of their troops.

Chinese asserted Japan precipitated the incident at Marco Polo bridge Wednesday night to have an excuse for extending her zone of influence in North China.

Under the treaty signed with major foreign powers after the Boxer uprising of 1901, China granted rights to maintain garrisons in the area to keep open a corridor to the sea. Chinese say Japan continuously has sought to gain domination of the sea.

Peiping was quiet at daylight although the local garrison of Chinese troops had spent the night harrying street corners and throwing up sandbag fortifications.

Tourists Head for Tientsin

Many tourists from the United States were rushed toward Tientsin, headquarters of the Japanese North China command.

Advices from Tientsin said the Japanese military authorities had taken over operation of the Peiping-Mukden railway because of the refusal of Chinese employees to haul Japanese troops to points in North China from Shanhaikwan, on the border of Manchoukuo.

Reliable Chinese sources, reporting the news, said the situation was definitely easier.

Mutual withdrawal of troops, removal of barricades in the city and opening of the inner gates was said to have formed part of the agreement concerning the Chinese reports of an armistice, which Japanese circles merely referred to their previous demands for withdrawal of troops, punishment of those responsible for the attack, and suppression of communism. These, they said, the Chinese had accepted.

May Hold Conferences.

LONDON, July 12.—(A.P.)—The possibility of Anglo-American conferences over the tension between Japan and China was disclosed in the house of commons today by Foreign Secretary Anthony Eden.

"Possible repercussions on British interests and on international trade generally of the tension between China and Japan are fully recognized," Eden said.

"It is the earnest desire of His Majesty's government that there should be a settlement not only of the present dispute but also of all difficulties existing generally between China and Japan."

Asked by laborite member, L. R. Fletcher, whether he would consider consulting the United States on the crisis in the Orient, Eden replied:

"Those kinds of considerations are very present to my mind."

Sick and Convalescent.

Tom Smalling, who was seriously injured last week in an automobile accident, was reported to be resting nicely Monday at the Navarro Clinic.

China-Japan At a Glance

(By The Associated Press)

In spite of reports of a new armistice in the five-day conflict west of Peiping, both Japan and China moved fresh soldiers today (Monday) toward the North China trouble zone. Officials said relations of the two powers were at the breaking point.

TOKYO—Japanese reinforcements, described by Premier Prince Fumimaro Kono as "adequate armed forces," moved toward North China from Japan proper, Korea and Manchuria.

The new commander of the Japanese expeditionary forces, Lieut. Gen. Kiyoski Katsuki, conferred at Hsinking with General Kenji Doihara, commander of the powerful Japanese army in Manchuria.

The Japanese war office asserted that the vanguard of a Chinese army, said to total 50,000, had reached the battle area west of Peiping along the Yungtze river and opened fire on the Japanese. This, the war office said, brought China-Japan relations to the breaking-point. Wide-spread Chinese troop movements toward the north were reported along with the Peiping-Hankow and the Peiping-Shanghai railroads.

Peiping-Chinese said a local armistice had halted the fighting along the Yungtze, which broke out again late Sunday. They declared Japanese troops were withdrawing from the banks of the river to their base at Fengtai, five miles southwest of Peiping. The Chinese declared the fighting Sunday night and Monday morning had been "furious," with heavy casualties and with tanks and artillery in action.

This fighting came after and contradicted reports that an armistice had been arranged by military negotiation Sunday afternoon.

COMMISSIONERS

(Continued From Page One)

lod amounted to \$1,638.75, with \$649 being that of the hospital, and \$989 for the physicians and hospital improvements.

A letter from Paul Moore, secretary of the Navarro County Hospital board, relative to proposed improvements at the P. and S. Hospital, was received and read. The next fiscal year were listed at \$1,450, including the repainting of the outside of the hospital, repainting the operating and delivery rooms and wards inside the main building, a complete renovating and repairing of the heating system, installation of Venetian blinds in some of the rooms and the purchase of a gas machine for use in the operating room.

The repairs have been suggested and recommended by City Engineer Wm. V. Mowlam.

Tax matters came in for discussion and action.

The court passed a resolution closing all departments of the court house during the funeral hour for D. T. Collins, 66, of Crye Creek, Monday afternoon at 3:30 o'clock. Mr. Collins formerly was a member of the commissioners' court.

Discussions of WPA work on roads was held.

SOVIET PLANE

the fliers would take precautions to avoid flying over moisture laden areas to escape the dangers of ice forming on their wings. They were prepared, nevertheless, to combat ice.

Communication Links.

SEATTLE, July 12.—(A.P.)—Two vital communication links were set up today for three Soviet pilots on a projected non-stop flight from Moscow to the United States.

A. Vartanian, Soviet representative here, said some arrangements had been made for handling messages to and from the plane as during the recent flight which ended 22 days ago at Vancouver, Wash.

The U. S. Army Signal Corps and various Canadian stations will give weather reports and receive reports of the plane's progress.

Seattle and Anchorage, Alaska, will be the key points of the set-up, Vartanian said.

S. Smirnov, Soviet radio engineer, stationed at Anchorage,

TRAFFIC DELAYED OVER COTTON BELT DUE TO ACCIDENT

Traffic over the Cotton Belt Lines between Corsicana and Pocatello was suspended for several hours Saturday night as a result of a "thrown" tire on a locomotive.

When the tire was thrown it damaged sidebars on the locomotive, and it was necessary to fire up an engine in Corsicana and bring the damaged engine here, and then return for its string of freight cars.

Traffic was restored about 10 o'clock Saturday night after a passenger train had been held here since about 7 p. m.

Five Drown in Kansas.

AUGUSTA, Kas., July 12.—(A.P.)—Five young men lost their lives in a holiday tragedy that overtook an outing of farm families on Santa Fe lake, 4½ miles west of here.

The five drowned when two rowboats overturned, plunging 13 persons into 20 feet of water.

Victims were Melvin Allen, 22, Wilbur Allen, 24, and Arthur Allen, 18, brothers who lived near Peabody; Herbert Clark, 16, and Claude Lassley, 22, of Burns.

Body Recovered.

FORT STOCKTON, July 12.—(A.P.)—The body of Joe Vasquez, 20, who was drowned yesterday in the flood waters of Comanche creek, was found today in a pool a short distance below the bridge from which he fell. The mishap occurred in a park which was flooded after a downpour.

Woman Found Injured.

PARIS, July 12.—(A.P.)—The sheriff's office here today was in igniting circumstances surrounding the injury of Mrs. Arville Welch Kitchen, 21, of Detroit, Tex., who was found unconscious on Highway No. 49 southeast of here. Her skull was fractured and she suffered back injuries.

She had been visiting her aunt, Mrs. Allie Horton, in Pattonville and left here yesterday in an automobile with another person.

OKLAHOMA CITY, July 12.—

(A.P.)—Mrs. I. P. Berkstresser, 49-year-old wife of a Stratford, Texas, farmer, was reported improving in a hospital here today from serious injuries she suffered yesterday in a car accident west of here.

Mr. and Mrs. Berkstresser and

HEAT

steadily. New York led with a fatality list of 62. New Jersey followed with 44 and Connecticut had 38.

An Associated Press survey showed the following deaths by other states attributed to the heat:

Pennsylvania, 37; Michigan, 27; Illinois, 18; Massachusetts, 17; Ohio, 14; Wisconsin, 11; Indiana and Rhode Island, 10 each; Maine, 6; Minnesota and Kansas, 5 each; Kentucky, Tennessee, Maryland, 5; District of Columbia and West Virginia, four each; Virginia, Iowa and Nebraska, three each; Georgia, Missouri and South Carolina, one each.

Had 100.8 Degree Fever.

NEW YORK, July 12.—(A.P.)—Daniel Long, 60, suffered more than anyone else here in the current heat wave, but he feels all right today.

Long collapsed in the street yesterday and at Bellevue Hospital was found to have the highest temperature ever recorded there in a human being—100.8 degrees.

They packed him in ice until it dropped to a normal 98.6.

their three daughters were returning to Texas when their car skidded and overturned in a ditch. Hospital attendants said Mrs. Berkstresser, the only person injured, probably would be released in a few days.

ST. LOUIS, July 12.—(A.P.)—Shelly A. Reuser, 55, died last night of injuries suffered Friday when he fell down an elevator shaft at a building where he was employed as a janitor.

Girard and Currie to Play.

The Girard Oilers and Currie will play a practice baseball game at Currie Wednesday afternoon at 4 o'clock, it has been announced.

BLANTON CASE

(Continued From Page One)

hold a meeting today to appoint a committee to investigate the case. There were also reports of plans for organization of an automobile caravan to go to Austin and demand of Governor James V. Allred that he take steps to clear up the case at once.

Only One Protest Received

AUSTIN, July 12.—(A.P.)—Governor Allred said today he had received only one telegram protesting the arrest in Brownsville Saturday of Louis Lamadrid, San Patito deputy constable and special investigator in the Blanton disappearance mystery.

Lamadrid was seized on a charge of unlawfully carrying a pistol by four officers including State Ranger Powell Fenner. The four were summoned to appear before the Willacy county judge today to show cause why they should not be held in contempt of court.

Allred said he did not contemplate asking the public safety department to withdraw Fenner from the lower Rio Grande valley and H. H. Carmichael, public safety director, said he had no intention of changing rangers assigned to that territory.

The telegram received by Allred was sent by Harley Blanton from Raymondville. Blanton maintained "Louis Lamadrid was about ready to clear the case when 'arrested' and appealed to the chief executive to 'give us investigators like Louis (Lamadrid).'"

Carmichael Will Not Act

RAYMONDVILLE, July 12.—(A.P.)—H. H. Carmichael, director of the state public safety department, announced at Austin today that he had no intention of changing rangers assigned to this territory a few hours before a hearing involving the arrest and release of an officer investigating the disappearance of Luther and John Blanton was scheduled.

Governor James V. Allred said in Austin he did not contemplate asking the public safety department to withdraw Ranger Power Fenner from the Rio Grande valley.

Fenner and Morgan Miller, state game warden, arrested Louis Lamadrid, San Patito deputy constable, who was appointed by the Willacy county commissioners court to investigate the Blanton case, on a charge of illegally carrying a gun in Brownsville.

allegations were entirely without foundation."

War Has Cost Million Lives

VALENCIA, July 12.—(A.P.)—The toll of human life in Spain's 6½-week-old civil war estimated today as nearly 1,000,000, although government officials are unable to set any definite figures for either deaths or property loss.

Wounded have been estimated as at least double the number killed.

Much Air Activity.

MADRID, July 12.—(A.P.)—A huge Spanish government air fleet roared over insurgent lines west of Madrid today in the heaviest bombing raid of the Spanish civil war thus far.

Insurgent aircraft countered with attacks on government positions.

Bombs burst and machine guns chattered over a 100 square mile government salient thrust into insurgent territory as the opposing planes pounded the ground forces.

Conservation Fund

WASHINGTON, July 12.—(A.P.)—The agriculture department, an informed official said today, hopes to turn back to the treasury's general fund more than \$60,000,000 of the 1936 soil conservation fund.

Payments to farmers who participated in the benefit program, the official reported, will be slightly above \$400,000,000. Congress made available \$470,000,000.

Corporation Court.

Seven charges of intoxication, one of disturbing the peace, one of intoxication and disturbing the peace, and one of double parking brought offenders before Judge A. H. Willie in the Corsicana corporation court as a result of arrests by city officers over the week-end.

TAKE THESE 2 STEPS to BETTER LIVING....

1—Use Electric Appliances in Your Home....

A dollar spent for electricity in the operation of electric appliances or for lighting the home does more for you than any other dollar you spend. That's why homemakers are using more cheap electricity every day to perform their household tasks. Let cheap electricity do your refrigerating, cooking, washing, cooling, cleaning... the more you use, the cheaper it becomes.

2—Modernize with New Appliances and Equipment....

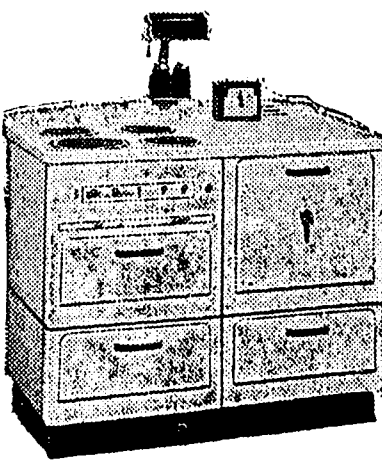

The electrical dealers are good fellows to get acquainted with... they will be glad to discuss with you your electrical needs, and show you the many time-saving and labor-saving electrical devices.

See these Modern Appliances at Electrical Dealers NOW!

ELECTRIC REFRIGERATION

...for good food preservation, frozen desserts, and greater convenience in the kitchen.

AUTOMATIC ELECTRIC RANGE
for carefree cooking, economical meals, a cooler, cleaner kitchen.

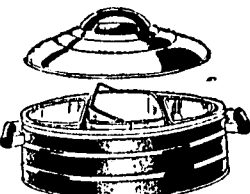

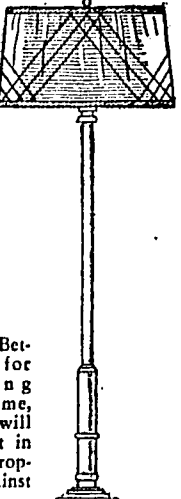

ELECTRIC WASHER

for removing the drudgery from washday. The electric washer will do the average family washing in a couple of hours.

BETTER SIGHT LAMPS

Select Better Light-Better Sight lamps for proper lighting throughout the home, and your family will enjoy real comfort in reading, and have proper protection against eyestrain.

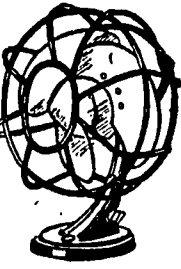

ELECTRIC ROASTER

for cooking meals quickly, and economically. It bakes cakes, pies, biscuits, roasts meats and steams vegetables from lamp socket current.

ATTIC VENTILATION FAN

...circulates cool, fresh air through the home, and, at the same time, drives the hot air out of the attic. Reduces the temperature in your home 10 degrees or more at night.

ELECTRIC FANS

...to provide cool breezes and keep the air moving these hot summer days. They come in any size to fit your need.

ELECTRIC PERCOLATOR

...for good coffee made right every time... made and served at the table while you eat.

ELECTRIC IRON

The new automatic electric irons provide a range of temperatures for ironing all kinds of materials.

WAFFLE IRON

...for delicious, golden brown waffles... ready in a jiffy, made right at the table as you serve them.

In your imagination exists a home, the home you want to have. Within its walls you picture perfect comfort, livableness, and happiness. You can make your present home the home you have wanted. Your Electric Service can help you, for Electricity spells comfort and convenience.

Take one room of your home, the kitchen, for instance. Without rebuilding—without even remodeling, you can make it one of the coolest, cleanest, most pleasant rooms in the house. Step by step, as each Electrical appliance is added, your kitchen just "grows up." Soon you'll find every wearying task performed by a faithful, economical Electrical servant... refrigerator, range, mixer, waffle iron, percolator, dish washer, ventilating fan, toaster, and others.

So it is with the remainder of the home... there are electrical servants that bring better living to every room... and the more of these electrical servants you use each month, the cheaper they work.

You will find the various appliances on display at electrical dealers here. They'll be glad to serve you. Visit them, or our store, and select the appliances you need to give you and your family more comfort... more convenience... more happiness.
